

PERSEVERANCE... A Path To Success

Joseph E. Whitton, MS, RT(R)(CT)(MR)
ASRT Vice Speaker of the House

Presentation Description:

The target audience for this presentation includes both seasoned medical imaging professionals and aspiring students of the medical imaging profession. The journey to success may take many paths. I have found that during my professional journey, the trait of “perseverance” has been an essential ingredient as I strive to achieve success throughout my career. This presentation will include a discussion on the meaning of “perseverance” and why it is significant. Examples of both historical and personal accounts will be presented. Audience participation will be encouraged to facilitate a discussion on the relevance of “perseverance” in their own professional journey.

Presentation Length: 60 minutes

Learning Objectives:

You will learn...

- To define the term “perseverance” and identify the role it plays in achieving success.
- To identify the role perseverant behavior has played in the lives of prominent individuals and professional colleagues.
